

## **DEMICO ENGINEERING INC.**

### **Who we are**

We are a team of professional engineers who strive to provide exceptional engineering services that aims at maximizing customer satisfaction. Our deep understanding of the business helps us tackle issues swiftly and professionally; maintaining schedules and budgets, and ensuring an overall successful project delivery.

### **What we do**

We provide structural and electro-mechanical engineering services that are effective, high-quality service, delivered on time to our customers and partners. We can help you identify resources, choose the right material to fit your needs, work with you on site selection, or work on remodelling and renovation, and much more. Our team approach is collaborative, and resourceful to save you the hassle in many areas, and provide you with a great project that meets your requirements and preferences.

### **The Team**

Each team member possess an impressive engineering prowess and heritage, so that you can rely on us in designing, drafting and supervising a wide spectrum of projects from steel and reinforced concrete residential to commercial and industrial projects. Regardless of the scope of your business, whether you are a big size company, a government entity, or running a personal project we have experience handling various assignments, spanning from regular housing or renovation projects to mega industrial plants.

Projects our engineers worked on include but are not limited to pre-stressed concrete, steel frames, trusses and roofing, curtain wall, aluminum sunshades, screens louvers and grilles, formwork design, sewage treatment plants, swimming pools, metal processing plants, foundation design such as spread, deep, mat foundation and retaining walls. Our team is confident using all major North America building codes as well as steel, concrete and aluminum standards.

### **How we run the business**

We seek operational excellence in every area of our business. We utilize sophisticated computer aided design and finite elements software packages to meet and exceed your expectations.

Our success and growth depends on your success and growth. We will go the extra mile to attend to your needs and expectations. We will only provide quality, cost effectiveness, and timeliness in our processes and services.

### **Contact us**

If you have any questions or inquiries regarding our services, you can reach the Demico Board of Directors directly. All inquiries can be submitted anonymously and confidentially.
